About Me

A highly motivated and independent student with a strong academic track record and excellent interpersonal skills. Adept at working both collaboratively and independently, with a natural ability to communicate effectively across diverse age groups. Proficient in I.T. and a confident, fast learner who thrives in dynamic environments. Demonstrates exceptional time management by successfully balancing academic studies, extracurricular commitments, and personal pursuits. An active individual who enjoys physical challenges, demonstrating resilience, determination, and a strong work ethic in both academic and physical pursuits.

Experience

Jay K9 Jan 2022 - Sept 2024

Assistant

Assisted with dog training and customer interactions. Laid trails for dogs, required interacting with customers and dogs, listening to instructions and good mechanics to deliver reward appropriately.

PADI Training Junior Open Water Diver

Skills

Independence

I am self-motivated and capable of working autonomously, as demonstrated by my home-schooling experience and ability to manage my academic studies effectively.

Responsibility

I take ownership of my commitments, ensuring tasks are completed diligently, whether in academic settings, volunteering, or outdoor challenges.

IT Skills

My study of computer science GCSE has helped to develop my knowledge of computer systems, as well as learning the basics of computer programming in python.

Hobbies And Interests

I am passionate about outdoor adventures and fitness, regularly engaging in rock climbing, surfing, paddleboarding, swimming, hiking, and gym training. I thrive on challenges that test my endurance and resilience, such as walking Hadrian's Wall in just seven days and completing all of the Three Peaks. I also achieved my Bronze Duke of Edinburgh Award, which strengthened my teamwork and problem-solving skills. Staying active is a key part of my lifestyle, and I am always looking for my next adventure.
